USDA ANNOUNCES CROP INSURANCE DEADLINE FOR DE NURSERY

Raleigh
Regional Office

FOR IMMEDIATE RELEASE

4407 Bland Road,
Suite 160
Raleigh, NC 27609

Delaware nursery producers should be aware that the final date for a new applicant to apply for the 2008 nursery crop insurance is May 1, 2007, according to the Raleigh Regional Office, USDA Risk Management Agency. New applications for crop year 2008 may be accepted until May 1, 2007, with coverage beginning 30 days after receipt of your signed application. If a policy is purchased after May 1st, insurance attaches 30 days after the application is filed and the premium is prorated based on the time remaining in the crop year after insurance attaches. For existing policies, coverage will automatically attach on June 1, 2007. The crop insurance year runs from June 1 through May 31. Growers may elect to insure field-grown and container grown practices under separate policies; for example, one practice may be insured under the CAT policy and the other practice may be insured under a Buy-up policy. Crop insurance provides protection for field-grown and containerized nursery plants against losses due to adverse weather conditions, fire, and wildlife. Insurance premium subsidies have been significantly increased in recent years, particularly at the higher levels of coverage. Producers are strongly urged to contact a local crop insurance agent as soon as possible for a premium quote and additional details. For a list of crop insurance agents in your area, contact the local USDA Farm Service Agency office or logon to the following Risk Management Agency web site:
